

**Pt. Ravishankar Shukla University,
Raipur (C.G.) 492010**

CURRICULUM & Syllabus

**Bachelor of Vacation (Interior Design)
(Semester System)**

Semester: I-VI

Session: 2025-28

Approved by

**B.Voc Ad-hoc Board of Study
Pt. Ravishankar Shukla University,
Raipur (C.G.)**

Session 2025-28
Bachelor Of Vocation (Interior Design)
Programme structure

YEAR: FIRST YEAR (SEM-I)									
Module code	Subject name	Lecture Hrs	Tutorial Hrs	Practical (1/2) Hrs	Credit	End sem exam	Marks		
							Internal	External	Total
GENERAL EDUCATION COMPONENT									
BVID 101	Communication Skills – I	2	1	0	3	Theory	10	40	50
BVID 102	History of Interior Design	2	1	0	3	Theory	20	80	100
BVID 103	Basic Design & Visual Arts – I	2	1	6	6	END SEM VIVA	20	80	100

Pt. Ravishankar Shukla University, Raipur (C.G.)

 COMMITTEE MEMBER

SYLLABUS

Bachelor of Vocation (Interior Design)

First Year (Semester - I)

BV ID 101: Communication Skills - I:

- Module 1: Developing the ability to read, understand, & communicate in English.
- Module 2: Learning to write formal communications.
- Module 3: Debates and group discussions.
- Module 4: Familiarizing with jury / viva procedures.

Reference Books: 1. Geetha Jajivan, Kiranmai: *Course in listening and speaking Skills part I*, Foundation Books Pvt Ltd.
2. Lorven: *Enrich your communication in English*

BVID 102: History of Interior Design :

- Module 1: **Ancient Indian and Western Interiors.**
Developments in interior design in India and the west during the ancient period (till the industrial revolution)
- Module 2: **Industrial Revolution.**
Changes in building forms and interior designing in the post industrial revolution period in major selected countries of the world, with examples.
- Module 3: **19th and 20th Century.**
Study of Victorian and Tuscan style. Artdecór and Mediterranean style of interior style. Post war modernism styles of interior design.
- Module 4: **Popular Interior Design Styles & Movements**
Study of characteristic features of Shabby Chic, Retro, Modern, De Constructivism, Minimalism, Contemporary & other Styles/Movements in interior design.

Reference Books: 1. Joseph Aronson, *The Encyclopedia of Furniture: Third Edition*, 1961
2. Bradley Quinn, *Mid-Century Modern: Interiors, Furniture, Design Details*, Conran Octopus Interiors, 2006.
3. Jim Postell, *Furniture Design*, Wiley publishers, 2007.
4. Edward Lucie-Smith, *Furniture: A Concise History (World of Art)*, Thames and Hudson, 1985
5. Robbie. G. Blakemore, *History of Interior Design and Furniture: From Ancient Egypt to Nineteenth-Century Europe*, Wiley publishers, 2005.
6. John F. Pile, *A history of interior design*, 2nd edition, Laurence King Publishing, 2005.
7. Jeannie Ireland, *History of Interior Design*, air child publications, illustrated ed., 2009.
8. Elaine, Michael Dywer, Christopher Mackinnon, Norman A. J. Berisford Denby, *A History of Interior Design*, Rhodoc International, 1983.
9. Giedion Sigfried, *Space, Time and Architecture: The growth of a new tradition*, 4th ed. Harvard University Press, Cambridge, 1962,

BVID 103: Basic Design & Visual Arts - I:

Page ,	B. Voc. in ID	Pt. Ravishankar Shukla University, Raipur (C.G.)
 HOD, BVOC ID		 COMMITTEE MEMBER
Maharaja Agrasen International College, Raipur (CG)		

- Module 1: Elements of Visual Composition**
Learning about the elements of visual composition and how they are used e.g. point, line, plane, volume, pattern, texture, light, levels, etc.
- Module 2: Principles of Visual Composition**
Understanding the principles of aesthetics and visual communication and how to use them to make a good design e.g. axis, balance, contrast, focus, etc.
- Module 3: Freehand Skills & Object Sketching**
Exercises to develop free hand skills – i.e. drawing lines, joining points, curves, objects, etc., object sketching – still & live.
- Module 4: Coloring**
Colour wheel, exploring colour schemes, coloring with different mediums.

Reference Books: 1. Ching, Francis D.K. *Architecture Form, space, and Order*, 2nd ed. Van Nostrand Reinhold, New York, 1996.
2. Hanks, A.David. *Decorative Designs of Frank Lloyd Wright*, Dover Publications, Inc. New York, 1999.
3. Helper, E.Donald, Wallach, I.Paul. *Architecture Drafting and Design*, 3rd ed. McGraw-Hill Book Company, New York, 1977.
4. John.F. Pile, *Color in Interior Design*, Mc-Graw Hill professional, 1st edition, 1997
5. Johannes Itten, *The Art of color*, John Wiley & Sons; Revised edition, 1997
6. Jonathan Pore, *Interior Color by Design, Volume 2: A design tool for Home owners, Designers and Architects*, Rockport publishers, 2005.
7. Ethel Rompillia, *Color for Interior Design*, Harry N. Abrams, 2005.
8. Itten, Johannes. *Design and Form: The basic course at the Bauhaus*, Thames and Hudson Ltd., London 1997.
9. Krier, Rob. *Architectural Composition*, Academy Editions, London, 1988.
10. Meiss, pierre Von. *Elements of Architecture: Form to place*, E and FN Spon, London, 1992.
11. Smithies, K.W. *Principles of Design in Architecture*. Chapman and Hall, 1983.
12. Wucius, Wong. *Principles of two Dimensional Design*. Van Nostrand Reinhold 1972. 11
13. *Thinking Design By Prof S Balram*
14. *Visual Thinking by Frank M. Young*
15. *Elements of Design: Rowena Reed Kostellow and the Structure of Visual Relationships* Hannah G.G, Princeton Architectural Press, NY, USA
16. *How Designers think: the design process demystified* by Lawson B., Architectural Press, Oxford 18.
17. *Design Methods* by Jones C. J., John Willey and Sons, Inc.

Web Sites: www.graphicdesignbasics.com

BV ID 104: Construction & Materials - I:

- Module 1: Elements of buildings**
Introduction to all the elements of building, from foundation to roof, e.g. footing, plinth, Threshold, walls, column, beam, slab, doors, windows, porch, lintel, parapet, etc.
- Module 2: Structural systems**
Concept of load bearing and framed structures and differences between them, types and details of lintels, sill and Arches.
- Module 3: Traditional/Vernacular Building Materials**
Mud, including stabilized earth, clay and clay products, lime, timber, bamboo, stone, etc.; their properties, uses, defects and preservations.

Module 4: Modern Building Materials
Bricks, sand, cement, mortar, P.C.C., R.C.C. and modern building materials, their properties and uses.

Reference Books:

1. Bindra, S.P. and Arora, S.P. *Building Construction: Planning Techniques and methods of Construction*, 19th ed. Dhanpat Rai Pub., New Delhi, 2000.
2. Moxley, R. Mitchell's *Elementary Building Construction*, Technical Press Ltd. Rangwala, S.C. *Building Construction* 22nd ed. Charota Pub. House Anand, 2004.
3. Sushil Kumar, T.B. *of Building Construction* 19th ed. Standard Pub. Delhi, 2003.
4. Rangwala, S.C. *Building Construction* 22nd ed. Charota Pub. House Anand, 2004.
5. Chowdary, K.P. *Engineering Materials used in India*, 7th ed. Oxford and IBH, New Delhi, 1990.
6. Rangwala, S.C. *Building Construction: Materials and types of Construction*, 3rd ed. John Wiley and Sons, Inc., New York, 1963.
7. Francis D. Ching, *Building Construction Illustrated*, Wiley publishers, 2008.

BV ID 105: Graphic Design - I:

Module 1: Introduction to basics

Introduction and setting up the drawing equipment, introduction to metric scales, f lines, their types, quality, grade, divisions and angles, drawing polygons, circles, geometrical curves, helix etc., concept of lettering & dimensioning.

Module 2: Solid Geometry

Projection of regular rectilinear and circular solids (prisms, pyramids, cones, cylinders, spheres etc.) in different positions, sections of regular rectilinear and circular solids in varying conditions of sectional plane, development of surfaces of simple objects.

Module 3: Orthographic Projections

Orthographic projections of both, 2D shapes and 3D forms.

Module 4: Three – Dimensional Views

Isometric and Axonometric views.

Reference Books:

1. Francis D. Ching, *Design Drawing*, Wiley publishers
2. Bellings, Lance Bowen. *Perspective space and Design*.
3. Conli, Claudius. *Drawings by Architects*.
4. N.D. Bhatt, *Engineering drawing- Plane & Solid Geometry*, Charottar Pub. Anand, Gujrat
5. S. C. Rein Koff, *Interior Graphics and Design Standards*, Whitney Library, New York

BV ID 106: Interior Design - I:

Module 1: Orientation to Interior Design

What is Interior Design? Difference between Architecture & Interior Design i.e the concept of shell & space, understanding the difference between design & decoration, functional and qualitative aspects of the interior environment.

Module 2: Trends

Changing modern trends of interior design; The emerging role of professional interior designers, training of interior designers related to professional practice aspects, introduction to professional bodies like IUID etc.

Module 3: Space & Interior Design

Detailed study of the functional aspects of interior spaces, understanding interior aesthetics, use of materials, texture, colour & light in interior design.

Module 4: Anthropometric Studies

Anthropometric study of various spaces, understanding the minimum, optimum & maximum space required for different activities, studying & analyzing residential spaces like bedroom, drawing room, kitchen, etc. and design exercises on these spaces.

Reference Books:

1. Ahmed Kasu, *Interior Design*, TWAIR Pub. Bombay
2. Sudhir Diwan, *Sanskriti a manual of Interior Design Vol-1, Interior Affairs*, Mumbai
3. Karlen Mark, *Space planning Basics*, Van Nostrand Reinhold, New York, 1992.
4. Joseph D Chiara, Julius Panero, & Martin Zelnick, *Time Saver standards for Interior Design & space planning*, 2nd edition, Mc-Graw Hill professional, 2001.
5. Francis D. Ching & Corky Bingelli, *Interior Design Illustrated*, 2nd edition, Wiley publishers, 2004.
6. Julius Panero & Martin Zelnick, *Human Dimension & Interior Space : A source book of Design Reference standards*, Watson – Guptill, 1979. Karlen
7. Barner, R.M., (1980), *Motion and Time Study, Design and Measurement of work*, John Wiley, New York.
8. Borgert, E. (1982) *Housecraft – Principles and Practices*, Issac Pitman, London.
9. Chaffin, D.B. and Andersson, G.B.J. (1984) *Occupational Biomechanics*, John Wiley, New York.
10. Cromwell, L. Weibell, F.J. and Pfeirffer, E.A. (1991) *Biomedical Instrumentation and*
11. *Measurements*, Prentice Hall, New Delhi
12. Pranav Bhatt 'Fundamentals of Art and Design'
7. Bately, Claude. *Design Development of India Architecture*.

First Year (Semester - II)

BV ID 201: Communication Skills - II:

Module 1: Making presentations, participating in a mock jury, etc.

Module 2: Learning to write case study reports.

Module 3: Preparing and presenting design portfolios.

Module 4: Developing self-confidence, striving towards overall personality development.

Reference Books:

1. K K Nelson, F Dubors, *Learning to learn*, Allyn & Bacon
2. E. H. McGrath, *Basic Managerial Skills for all*, Prentice hall of India
3. P D Kulkarni & B B Sharma, *Independent Study Techniques*, TTTI, Chandigarh
4. Elizabeth Hierney, *101 Ways to Better Communication*, Kogan Page
5. Malvika Nagarkar, *Communication Skills*, MSBTE
6. Wren & Martin, *English Grammar*, Chand Books
7. Burgoon Michael, *Human Communication*, London: Sage Pub.
8. G Leech & Jan Svartvik, *A Communicative grammar of English*, ELBS
9. R K Bansal & J B Harrison, *Spoken English for India*, New York: Mcgraw Hill
10. J D O'Conner, *Better English Pronunciation*, N Delhi: Orient Longman
11. *Technical Communication : A Reader Centered Approach*, by Anderson, Thomson Learning

12. Geetha Jajivan, Kiranmai: *Course in listening and speaking Skills part I*, Foundation Books Pvt Ltd.
13. Lorven: *Enrich your communication in English*
14. Burden, Ernest, *Architectural Delineation: A photographic approach to presentation*, 2nd ed, McGraw Hill, Inc., New York, 1982.

BV ID 202: Graphic Design - II:

Module 1: One Point Perspective

Introduction and drawing of one point perspective of given objects.

Module 2: Two Point Perspective

Introduction and drawing of two point perspective of given objects.

Module 3: Perspective by Measuring Point Method

Introduction and drawing of perspective by measuring point method of given objects, drawing freehand perspectives.

Module 4: Shades & Shadows

Introduction and drawing of shades & shadows, in 2-D and 3-D drawings.

Reference Books:

1. N.D. Bhatt, *Engineering drawing- Plane & Solid Geometry*, Charottar Pub. Anand, Gujrat
2. S. C. Rein Koff, *Interior Graphics and Design Standards*, Whitney Library, New York
3. Robert W. Gill, *The Thames and Hudson Manual of Rendering with pen and ink*, Thames & Hudson Ltd. London
4. Graphic Shaw, *Interior Perspectives to Architectural Designs*
5. Shankar Mulik, *A Text Book of perspectives and graphics*, Allied Pub. Bombay
6. F D K Ching, *Perspective Drawing*

BV ID 203: Basic Design & Visual Arts - II:

Module 1: Rendering

Graphical representations of building elements, plants, furniture, etc. in plan, elevation and section, shading and rendering with different materials.

Module 2: Theory of Design

Introduction to architectural composition, application of elements and principles of design through 2-D and 3-D compositions, understanding shapes, forms, solids and voids.

Module 3: Art and Graphic Skills

Studying other arts forms like painting, sculpture, pottery, mural making, etc., understanding the limitations and uses of each form and learning to critically appreciate them.

Module 4: Furniture Design (Based on Basic Design Principles)

Any furniture design based on the basic design principles and art forms studied, its presentation with the help of sketches, drawings and model.

Reference Books:

1. Stephen Kliment, *Architectural Sketching and Rendering: Techniques for Designers and Artists*, Watson Guptill, 1984.
2. Ivo D. Drpic, *Sketching and Rendering of Interior Space*, Watson- Guptill, 1988.

Minak *ffari* *My* *Pbs*

3. Maureen Mitton, *Interior Design Visual Presentation: A Guide to graphics, models and presentation techniques*, 3rd edition, wiley publishers, 2007 10
4. Mogali Delgade Yanes and Ernest Redondo Dominquez, *Freehand drawing for Architects and Interior Designers*, ww.Norton & co., 2005
6. Atkin William W. Corbellent, Raniero and Firore. R. Vincent, *Pencil Techniques in Modern Design*. 4th ed. Reinhold pub Corporation. New York, 1962.

BV ID 204: Construction & Materials - II:

Module 1: Materials for Flooring (Interior Floor Finishes)

Study of flooring materials – both fixed and movable/flexible, their advantages, disadvantages, application and fixing methods.

Module 2: Materials for Walls (Interior Wall Finishes)

Study of different materials for wall finishes, their advantages, disadvantages, uses and application methods.

Module 3: Ceilings

Study of different types of ceilings (fixed, suspended etc.), materials used for different types of ceilings, including heat and sound insulating materials.

Module 4: Doors and Windows:

Functions of doors & windows, terminology used in doors and windows, study of various types of doors & windows and their uses, understanding the joinery details of doors and windows; Learning about fastenings and fixtures used in doors and windows.

Reference Books:

1. Bindra, S.P. and Arora, S.P. *Building Construction: Planning Techniques and Methods of Construction*, 19th ed. Dhanpat Rai Pub., New Delhi, 2000.
2. Moxley, R. Mitchell's *Elementary Building Construction*, Technical Press Ltd.
3. Rangwala, S.C. *Building Construction* 22nd ed. Charota Pub. House Anand, 2004.
4. Sushil Kumar. *T.B. of Building Construction* 19th ed. Standard Pub. Delhi, 2003.
5. Chowdary, K.P. *Engineering Materials used in India*, 7th ed. Oxford and IBH, New Delhi, 1990.
6. Rangwala, S.C. *Building Construction: Materials and types of Construction*, 3rd ed. John Wiley and Sons, Inc., New York, 1963.
7. Francis D. Ching, *Building Construction Illustrated*, Wiley publishers, 2008.

BV ID 205: Interior Services - I:

Module 1: Introduction & Terminologies

Introduction to electricity – its generation, transmission and supply, terminologies used in electrical supply – ampere, circuit, conductor, volt, watt, single phase, three phase, etc.

Module 2: Electrical Supply & Distribution

Supply of electricity to a residential building and its distribution – consumer control assembly (CCA), earthing, circuit breakers, etc., types of wires & wiring systems, their advantages and disadvantages, electrical outlets 5/6 Amp, 15/16 Amp, switch boards, switches, sockets, etc., thumb rules for the provision of switch boards, etc.

Module 3: Lighting and Lighting Fixtures

Purpose of lighting – ambient, task and accent lighting; Forms of lighting sources – point, linear, planar and 3D sources, Lighting types – incandescent, fluorescent, CFLs, LEDs, halogen, etc., methods of lighting – direct & indirect, up lighting, down lighting, combination of up & down lighting, concealed lighting, etc.

Module 4: Load Calculations & Layouts

Electrical appliances & their power consumption, preparation of electrical layouts.

Reference Books:

1. *Electrical wiring and contracting (vol. 1 to vol.4), London. The New era Publishing Company.*
2. *Dr Frith Abnwo and others, Electrical Engineering hand book.*
3. *William . J. Guinness, Mechanical and Electrical Systems for Buildings, New York : Mc Graw Hill.*
4. *Faber, Oscar and Kell, J.R. Heating and Air conditioning of Building. Architectural Press, surrey, 1945.*
5. *Prasad Manohar, Refrigeration and air-conditioning. 5th ed, New Age Intl. pub, New Delhi, 1996.*

BVID 206: Interior Design - II:

Module 1: Introduction to Small scale public/commercial space.

Introduction to and understanding the meaning & scope of spaces like offices, coffee shops, retail outlets etc. Carrying out case studies, analyzing them and drawing inferences from the same, understanding the functional requirements of the client and thereby learning to prepare a client brief.

Module 2: Site Study & Analysis

Studying the given site and evaluating it on different parameters and issues including structural, aesthetical, functional, psychological, etc., analyzing the site and drawing inferences for use at the designing stage.

Module 3: Conceptualization of Design

Conceptualizing a design solution based on the above studies and analyses; Primarily ideas to be expressed with freehand drawings / rough sketches initially and then proper scaled drawings are to be made.

Module 4: Presentation of Design

Presentation of design with the help of given drawing requirements, format and model. Preparing working drawings and detailing.

Reference Books:

1. *Karlen Mark, Space planning Basics, Van Nostrand Reinhold, New York, 1992.*
2. *Joseph D Chiara, Julius Panero, & Martin Zelnick, Time Saver standards for Interior Design & space planning, 2nd edition, Mc-Graw Hill professional, 2001.*
3. *Francis.D. Ching & Corky Bingelli, Interior Design Illustrated, 2nd edition, Wiley publishers, 2004.*
4. *Julius Panero & Martin Zelnick, Human Dimension & Interior Space : A source book of Design Reference standards, Watson – Guptill, 1979.*
5. *Karlen Mark, Kate Ruggeri & Peter Hahn, Space Planning Basics, Wiley publishers, 2003.*

Second Year (Semester - III)

BVID 301: Computer Applications - I:

Module 1: Introduction

10

Page

B. Voc. in ID

Pt. Ravishankar Shukla University, Raipur (C.G.)

HOD, BVOC ID

Maharaja Agrasen International College, Raipur (CG)

COMMITTEE MEMBER

Minod

Pras

Introduction to popular and most suitable software for the students, that are used for interior designing, drawing, presentation & documentation along with their types, configurations, system requirements, uses and applications & limitations, new developments on the horizon.

- Module 2: **Documents & Slide presentations**
Learning to prepare documents and slide presentations (using software like MS Word, MS Power point, or similar).
- Module 3: **2D Drafting**
Introduction and primary application of software for drafting (using software like AutoCAD or equivalent in nature, output, etc.)
- Module 4: **Software application in designing & drawing presentation**
Application of learned software in current semester design project, to prepare a portfolio consisting of design development and presentation drawings.

BV ID 302: Specifications:

- Module 1: **Introduction**
Purpose (need) and importance of writing specifications.
- Module 2: **Types of specifications**
General specifications and detailed specifications.
- Module 3: **Writing specifications for materials**
Learning to write specifications for interior materials.
- Module 4: **Writing specifications for workmanship**
Learning to write specifications for workmanship.

Reference Books:

1. Rangwala, S.C. *Building Construction: Materials and types of Construction*, 3rd ed. John Wiley and Sons, Inc., New York, 1963.
2. Francis D. Ching, *Building Construction Illustrated*, Wiley publishers, 2

BV ID 303: Furniture Design - I:

- Module 1: **Designing & drawing furniture**
Designing and drawing customized basic furniture of various types chiefly for residential use, considering design aspects like ergonomics, functionality, material application, constructability, aesthetics etc.
- Module 2: **Detailing furniture**
Understanding the necessity, use & applications of 'designed details' for customization, considering client needs, design aspects like ergonomics, functionality, material use, workability, aesthetics etc.
- Module 3: **Execution/Shop drawings of furniture**
Preparing execution/shop drawings of furniture, down to the last detail, specifying materials, construction process and including pre & post construction precautions.
- Module 4: **Hands-on/Workshop experience**
Preparation of full size or scaled models of selected furniture items in workshop as per the prepared/given drawings and specified materials or simulation of materials upto a considerable & acceptable limit.

Reference Books:

1. F D K Ching, *Building Construction Illustrated*, Van Norstrand
2. William P. Spence L. Duane Griffith, *Furniture & Cabinet Construction*, Prentice Hall Inc. New Jersey
3. Mario Dal Fabro, *How To Build Modern Furniture*, McGraw Hill Book Company, New York.
4. William P. Spence L. Duane Griffith, *Cabinet making, design & construction*, Prentice Hall Inc. New Jersey
5. D.A.C.A. Boyne, *Architects' Working Detail Vol. I/ III/ IV/ V & VIII*, The Arch. Press Ltd. London

BV ID 304: Construction & Materials - III:

Module 1: Interior materials

Interior construction materials like steel, wood, stone and other contemporary materials, their market forms and availability, application areas and methods of use.

Module 2: Materials for specific uses

Insulating and sound proofing materials, water proofing materials, interior and exterior cladding materials, their market forms and availability, application areas and methods of use.

Module 3: Vertical connectivity components

Design and construction of vertical connecting components like staircases, steps, ramps, etc. with use of various construction materials for interior purpose, their design parameters depending on quantum of use, feasibility, functionality, aesthetics etc.

Module 4: Partitions

Design and construction of various types of partitions in interior spaces with use of various materials, along with their design limitations, design feasibility, functional aspects, etc.

Reference Books:

BV ID 305: Interior Services - II:

Module 1: Plumbing for water supply

Materials for water supply piping & their jointing methods, fittings available in market like bends, tee, elbow, adaptor, nipple, etc., including plumbing for hot water supply, process of plumbing including line out, taking levels & fixing of pipes.

Module 2: Sanitary piping materials

Materials for sanitary piping & their jointing methods, fittings available in market like traps, bends, tee, Y, elbow, collar, etc.;

Module 3: Plumbing & sanitary fixtures

Plumbing fixtures like valves, cocks, mixers, showers, health faucets, etc., sanitary fixtures like basins, sinks, water closets, bath tubs, urinals, bidets, etc.

Module 4: Hot water supply

Working & installation of instant water heaters, solar water heaters, gas geysers, etc.

Reference Books:

8. C. Panchdhari, Water Supply and sanitary installations, Bureau of Indian Standards, N.Delhi
9. Sandeep Mantri, Practical Bldg. Const. & its mgmt., Mantri proj. & consultancy Pvt.ltd

BV ID 306: Interior Design - III:

Module 1: Introduction to Residential Interior Design

Introduction to and understanding the meaning & scope of residential interior design, carrying out case studies, analyzing them and drawing inferences from the same, understanding the functional requirements of the client and thereby learning to prepare a client brief.

Module 2: Site Study & Analysis

Studying the given site and evaluating it on different parameters and issues including structural, aesthetical, functional, psychological, etc., analyzing the site and drawing inferences for use at the designing stage.

Module 3: Conceptualization of Design

Conceptualizing a design solution based on the above studies and analyses, primarily ideas to be expressed with freehand drawings / rough sketches initially and then proper scaled drawings are to be made.

Module 4: Commercial Interior Design assignment

Presentation of design with the help of given drawing requirements, format and model, using 2D graphics software.

Reference Books:

1. Karlen Mark, Space planning Basics, Van Nostrand Reinhold, New York, 1992.
2. Joseph D Chiara, Julius Panero, & Martin Zelnick, Time Saver standards for Interior Design & space planning, 2nd edition, Mc-Graw Hill professional, 2001.
3. Francis.D. Ching & Corky Bingelli, Interior Design Illustrated, 2nd edition, Wiley publishers, 2004.
4. Julius Panero & Martin Zelnick, Human Dimension & Interior Space : A source book of Design Reference standards, Watson – Guptill, 1979.
5. Maureen Mitton, Interior Design Visual Presentation: A Guide to Graphics, Models, and Presentation Techniques. John Wiley and Sons, 2003
6. Mark.W. Lin, Drawing and Designing with Confidence: A step-by-step guide, Wiley and Sons, 1993.
7. Robert Rengel, Shaping Interior Space, Fairchild Books & Visuals ,2002

Second Year (Semester - IV)

BV ID 401: Computer Applications - II:

Module 1: Presentation techniques

Learning presentations techniques with software like Photoshop, or similar.

Module 2: 3D representations

Learning 3D representations using software like Sketch Up, or equivalent in nature, output, etc.

Reference Books:

1. Argelia Barcena, *Revit Architecture – Fundamentals*.
2. Cadfolks, *AutoCAD 2019 for Beginners*.
3. Murdock, K. (2015). Kelly L. Murdock's *Autodesk 3ds Max 2016 Complete Reference Guide*. Sdc Publications.
4. Paul, A. (2013). *Renaissance Revit: Creating Classical Architecture With Modern Software*.
5. Wing, E. (2016). *Autodesk Revit 2017 for Architecture: No Experience Required*. John Wiley & Sons.

BV ID 402: Estimation:

Module 1: Introduction

Purpose (need) and importance of estimation.

Module 2: Measurements

Understanding the modes and methods of measuring various items of an interior project.

Module 3: Rate analysis

Understanding the way of calculating the rates of various items of an interior project.

Module 4: Calculating quantities

Learning to estimate an interior project

Reference Books:

1. Roshan Namavati, *Professional Practice (Estimation & Valuation)*, Lakhani Book depot
2. Roshan Namavati, *Architectural Detailing in Residential Interiors*, Lakhani Book depot
3. C M Pitrowski, *Professional Practice in Interior Design*, Van Nostrand Reinhold
4. Harry Siegel, CPA, Alan Sigel, *A Guide to Business Principle and Practices for Interior Designers*, Whitney library of design.
5. William R. Hall, *Contract Interior Finishes*, Whitney library.
6. William Rupp, *Construction Materials of Interior Design*, Whitney Library.

BV ID 403: Furniture Design - II:

Module 1: Designing and drawing customized basic furniture of various types chiefly for commercial & public use, considering design aspects like ergonomics, functionality, material application, constructability, aesthetics etc.

Module 2: Market Study

Market Study & survey for various materials of furniture construction, covering parameters like commercial & special items, their mode of measurement & billing, availability, finishes, technical qualities, handling precautions etc.

Module 3: Detailing

Understanding the necessity, use & applications of 'designed detail' for customization, considering design aspects like ergonomics, functionality, material use, workability,

aesthetics etc. including detailing of joinery, specifying materials for designed furniture.

Module 4: Execution/Shop drawings of furniture

Preparing execution/shop drawings of furniture, down to the last detail, specifying materials, construction process and including pre & post construction precautions.

Reference Books:

1. F D K Ching, *Building Construction Illustrated*, Van Nostrand
2. William P. Spence L. Duane Griffith, *Furniture & Cabinet Construction*, Prentice Hall Inc. New Jersey
3. Mario Dal Fabro, *How To Build Modern Furniture*, McGraw Hill Book Company, New York.
4. William P. Spence L. Duane Griffith, *Cabinet making, design & construction*, Prentice Hall Inc. New Jersey
5. D.A.C.A. Boyne, *Architects' Working Detail Vol. I/ III/ IV/ V & VIII*, The Arch. Press Ltd. London

BV ID 404: Construction & Materials - IV:

Module 1: Additions and alterations in load-bearing structures

Preconstruction, during construction & post construction precautions to be taken while designing and executing additions and alterations in load-bearing structures.

Module 2: Additions and alterations in framed structures

Preconstruction, during construction & post construction precautions to be taken while designing and executing additions and alterations in framed structures.

Module 3: Mezzanine and intermediate floors and landings

Design and construction of mezzanine floors, intermediate floors and landings with the use of various construction materials for interior purpose, their design parameters, viability, purpose, aesthetics, etc.

Module 4: Built-in Furniture:

Understanding built-in, fixed, movable, modular furniture, etc., advantages, disadvantages and applications of these; construction of built-in furniture for residential, commercial & hospitality spaces.

Reference Books:

1. Joseph De Chaira Jullius Panero Martin Zelnik, *Time Saver Standard for Interior Design & Space Planning*, McGraw Hill New York
2. John Pile, *Interior Design*, Harry N. Adry Publishers
3. Ahmed Kasu, *Interior Design*, TWAIR Pub. Bombay
4. Jullius Panero Martin Zelnik, *Human Dimensions and Interior Spaces*, Whitney Library New York
5. Phillis Sleen Allen, *Beginning of Interior Environment*, New York

7. Shirish Bapat *Living Area (Interior Space)* Bela books Publishers
8. Francis D K Ching, *Interior Design Illustrated*, Van Nostrand, New Delhi
9. V. S. Parmar, *Design Fundamental in 1st architecture*, Somaiya Pub. Pvt. Ltd.
10. Francis D. Ching, *Building Construction Illustrated*, Wiley publishers, 2

BV ID 405: Interior Services - III:

Module 1: Air conditioning

Mechanical ventilation and its application, heat load calculations, introduction to air conditioning systems, methods of air conditioning, equipments and components used in air conditioning, selection criteria for air conditioning systems, ducting principles, layout schemes and placement of air

conditioner outlets in central air conditioning systems.

Module 2: Fire fighting

Introduction to the principles of fire precaution and fire fighting, fire safety systems – fire fighting provisions, types and applications, fire retarding materials, fire rated doors etc., rules and regulations for fire safety

Module 3: Communication & security systems

Communication systems used in interiors e.g. telephones, intercom, data networking for PCs, their layouts, introduction to principles of security, types of security systems and its applications and making provisions for them.

Module 4: Building automation systems

Various building automation systems (BAS) used in interiors, their applications and provisions.

BV ID 406: Interior Design - IV:

Module 1: Introduction to Hospitality Space Design

Introduction to and understanding the meaning & scope of planning hospitality spaces, carrying out case studies, analyzing them and drawing inferences from the same; Understanding the functional requirements of the client and thereby learning to prepare a client brief.

Module 2: Site Study & Analysis

Studying the given site and evaluating it on different parameters and issues including structural, aesthetical, functional, psychological, etc., analyzing the site and drawing inferences for use at the designing stage.

Module 3: Conceptualization of Design

Conceptualizing a design solution based on the above studies and analyses, primarily ideas to be expressed with freehand drawings / rough sketches initially and then proper scaled drawings are to be made.

Module 4: Interior Design assignment of a Hospitality Space

Presentation of design with the help of given drawing requirements, format and model, using 2D graphics software.

Reference Books:

1. Karlen Mark, *Space planning Basics, Van Nostrand Reinhold, New York, 1992.*

2. Joseph D Chiara, Julius Panero, & Martin Zelnick, *Time Saver standards for Interior Design & space planning*, 2nd edition, Mc-Graw Hill professional, 2001.

7. Robert Rengel, *Shaping Interior Space*, Fairchild Books & Visuals ,2002

Third Year (Semester - V)

BV ID 501: Computer Applications - III:

Module 1: Presentation techniques

Application of presentations and rendering techniques in design project.

Module 2: 3D representations

Application of 3D modeling and drafting using software like AutoCAD , Sketch Up, or equivalent in design project ,taking layouts etc.

Reference Books:

1. Argelia Barcena, *Revit Architecture – Fundamentals*.
2. Cadfolks, *AutoCAD 2019 for Beginners*,
3. Murdock, K. (2015). Kelly L. Murdock's *Autodesk 3ds Max 2016 Complete Reference Guide*. Sdc Publications.
4. Paul, A. (2013). *Renaissance Revit: Creating Classical Architecture With Modern Software*.
5. Wing, E. (2016). *Autodesk Revit 2017 for Architecture: No Experience Required*. John Wiley & Sons.

BV ID 502: Professional Practice:

Module 1: Role of Interior Designer in society

Interior Design profession as compared to other professions, difference between profession and business, IIID and other organizations related to interior design profession, interior designers approach to works, ethical ways of getting works.

Module 2: Issues of professional practice

Professional behaviour, ethics, contracts, tenders, arbitration etc. Career opportunities, styles of interior design practice, relationship between client and professional, type of fees, process of fees negotiations, billing methods, tax liabilities, etc.

Module 3: Interior Designer's duties

Drawings to be prepared, Interior Designer's relation with other parties connected with works such as client, contractor, sub-contractors, consultants and authorities. IIID Code of professional conduct: scale of charges: units and mode of measurements, clerk of work and his duties, inspection of work, certificate of payment to contractor, bill of quantities, and allied formalities.

Module 4: Setting up an Interior Design practice

Staff structure, filing of records, correspondence and drawings, maintenance of accounts, presentations in meetings, recording minutes of meeting, etc.

Reference Books:

1. Gupta C.B, and Srinivasan N.P, *Entrepreneurship development in India*, Sultan Chand & Sons, New Delhi, 2004.
2. Chunawalla S.A, *Sales Management*, Himalayan Publishing House, New Delhi, 1991.
3. Vasant Desai, *Project Management and entrepreneurship*, Himalaya Publishing House, New Delhi, (2000).
4. David H.Moll, *Entrepreneurship*, Prentice Hall of India, New Delhi, 1999. Frank Jerkins, *Advertising*, Prentice Hall of India, New India, 2000.

BV ID 503: Sustainable Practices In Interior Design:

Module 1: Introduction

Introduction to the concept of sustainable design and rating systems.

Module 2: Sustainable Interiors

Concept of sustainable interiors, need for sustainable interiors.

Module 3: Principles of Sustainable Interior Design

Understanding the principles of sustainable interior design, designing and executing a sustainable interior project.

Module 4: Practice of Sustainable Interior Design

Carrying out a case study of a small sustainable project or converting one of the projects of the earlier semester to a sustainable interior project.

Reference Books:

1. Rai G.D (1996), *Solar Energy Utilization*, Khanna Publichser, Delhi.
2. Riggs, J.R. (1992) *Materials and components of Interior Design*, Regents Hall, New Jersey.
3. Faulkner, R., and Faulkner. S, (1987) *Inside Today's Home*, Rinehart publishing House, Newyork.
4. Roa, M.P. (1998), *Interior design, principles and practice*, standard publishers, Delhi.
5. Deshpande, R.S, (1974) *Build your own home*, United book corporation, Poona.

BV ID 504: Project/Dissertation:

Introduction of the student to basic research principles and research methods, report writing skills and dissertation writing. Student is expected to choose his/her own topic of research on a specific area/field after consultation with the dissertation guide/subject coordinator. He/She is also required to do the following before the end of the semester:-

- finalize the topic and guide,
- set the aim-objectives and scope of study,
- conduct research and review related literature,
- identify and conduct related case studies and project reviews,
- collect data and critically analyze the data,
- finalize the Interior Design brief/programme and
- identify and finalize the site for design.

A focused individualistic approach towards design, in consultation with the guide, resulting in professionally satisfying presentation of the design that would put to test the individual strength and caliber of the student.

Note: Continuous assessment of sessional work may consist of the above in the given time frame as set by the guide/subject coordinator. Students are required to submit a draft (printed) copy of the dissertation volume supplemented with finished, rendered drawings to suitable scale with related detailing, all certified by the guide/subject coordinator and Principal, which may be presented for

Final Viva-voce examination, by the end of the semester

Reference Books:

1. F D K Ching, *Building Construction Illustrated*, Van Nostrand
2. William P. Spence L. Duane Griffith, *Furniture & Cabinet Construction*, Prentice Hall Inc. New Jersey
3. Mario Dal Fabro, *How To Build Modern Furniture*, McGraw Hill Book Company, New York.
4. William P. Spence L. Duane Griffith, *Cabinet making, design & construction*, Prentice Hall Inc. New Jersey
5. D.A.C.A. Boyne, *Architects' Working Detail Vol. I/ III/ IV/ V & VIII*, The Arch. Press Ltd. London

Third Year (Semester - VI)

BV ID 601: Practical Training:

The candidates are to undergo 90 working days of full time practical training with any registered Architect (registered with the Council of Architecture) or Interior Designers (Member of IUID) during the second term of the third year. This internship is intended to provide a pre-professional experience whereby students get the required experience to get hired into or start-up a design firm. By completing this internship students will develop the knowledge and skills employers seek in this competitive job market. Although courses taken at the study centre can help prepare for a future career in interior design field, it is the experiential component that actually provides the skills necessary to enter the field and be successful. During this practical training, the students are expected to cover all the five phases of project management in interior designing:

1. Initiating
2. Planning
3. Executing
4. Monitoring
5. Closing

The candidates shall have to produce to the Institute, a report of internship along with a certificate of successful completion of the internship from the firm they worked with, before getting hall-ticket for the VI Semester Viva-voce examination.
