Poster

The poster features a header with logos for Pt. Ravishankar Shukla University, Institution's Innovation Council, MHRD's Innovation Cell, G20 India 2023, and 75 Azadi Ka Amrit Mahotsav. The main text reads: 'Institute Innovation Council Pt Ravishankar Shukla University, Raipur in collaboration with S.o.S in Electronics and Photonics & IRETM'. Below this is a graphic of a globe with a green side and a brown side, representing environmental contrast. The event title is 'Welcome's You to the celebration "World Environment Day: Climate Change" on June 05, 2024 | 11:00 AM Onwards'. The venue is 'Computer Lab S.o.S in Electronics and Photonics'.

Details of Event

Name of Program Type	World Environment Day (Day Celebration Activity under IIC)
Name of Program Theme	Lecture Session on World Environment Day: Climate Change
Objective	The primary objective of the event was to inspire students towards proactive actions toward environmental conservation and to foster a sense of responsibility in addressing global warming challenges.
Benefit	Aware students towards Global warming
Duration of Activity	3 hours
Mode of Event	Offline
No. of Students Participants	27
No. of Faculty Participants	11
No. of External Participants	NIL
Expenditure Amount	5000

About the Speaker

Prof. Kamlesh Shrivastava, Professor, Chemistry Department, PRSU, delivered a thought-provoking lecture. He focused on three essential aspects: Environment, Health, and Security (EHS). Prof. Shrivastava seamlessly linked his research work to environmental issues, shedding light on the significance of scientific research in addressing environmental challenges. He discussed the sinking of Josimath, attributing it to unplanned construction and its adverse environmental impact. Prof. Shrivastava also spoke about the Sustainable Development Goal 2030, underlining its relevance in achieving a balanced and sustainable future.

A notable segment of the event was the screening of a video by IIT Mumbai professor Dr. Chetan Singh Solanki. The video showcased Dr. Solanki's campaign, "5 years: Yours, Mine and Planet's," which aims to control the rising global temperature by 2030. Dr. Solanki emphasized practical steps to save electricity, such as wearing wrinkled clothes (foregoing ironing) every Monday. He also advocated for every household to have at least one solar-powered room, promoting renewable energy adoption on an individual level.
