

A Report on

Workshop on SAMARTH e-governance

Jointly Organized By

Internal Quality Assurance Cell(IQAC), S.O.S. in Computer Science & IT, & Digital Learning and Online Education Cell

A workshop on “**Workshop on SAMARTH e-Governance**” was jointly organized by Internal Quality Assurance Cell (IQAC), S.O.S. in Computer Science & IT, & Digital Learning and Online Education Cell of Pt. Ravishankar Shukla University, Raipur on 23-25 September 2024 at S.O.S. in Computer Science & IT.

A workshop focused on the Samarth e-Governance initiative was organized for university teachers to streamline their operations and improve their administrative efficiency. The event was inaugurated by the Vice Chancellor, Dr. Sachidanand Shukla, who emphasized the importance of integrating technology.

In his speech, the Vice Chancellor introduced the Samarth e-Governance initiative, explaining its role in streamlining administrative processes and improving communication within the university ecosystem. He encouraged all faculty members to actively participate in the workshop, as the knowledge gained would be vital in adapting to software modules to help streamline administrative processes and improve operational efficiency.

The workshop was conducted by Dr. V.K. Patle, who provided hands-on training on the Samarth e-Governance system, covering the operational aspects such as Employee services, Leave Management, Payroll, File Management and tracking system. He also emphasized on its benefits for both faculty and administration.

The workshop concluded with a question-and-answer segment, allowing participants to clarify doubts and share insights.

At the conclusion of the workshop, Dr. Arti Parganiha, Director, IQAC Cell, expressed her gratitude to all participants for their enthusiastic engagement and contribution to the discussions. She also thanked the Vice Chancellor for his support in organizing the workshop and acknowledged the hard work of the organizing committee.

The workshop was a significant step towards equipping university faculty with the necessary skills to navigate the evolving landscape of administration through technology. The knowledge gained will undoubtedly contribute to improving governance at the university.

The Vice Chancellor's vision for a technologically advanced educational environment, combined with Dr. Patle's expertise, made this workshop a significant step towards achieving the university's goals.
