

Workshop on Learning Management System (LMS)

Jointly Organized By

Internal Quality Assurance Cell(IQAC), S.O.S. in Computer Science & IT, & Digital Learning and Online Education Cell

A workshop on “**Workshop on Learning Management System (LMS) and SAMARTH e-Governance**” was jointly organized by Internal Quality Assurance Cell (IQAC), S.O.S. in Computer Science & IT, & Digital Learning and Online Education Cell of Pt. Ravishankar Shukla University, Raipur on 23-25 September 2024 at S.O.S. in Computer Science & IT.

A workshop focused on Learning Management Systems (LMS) and the Samarth e-Governance initiative was organized for university teachers to enhance their digital teaching skills and improve administrative efficiency. The event was inaugurated by the Vice Chancellor, Dr. Sachidanand Shukla, who emphasized the importance of integrating technology in education.

In his speech, the Vice Chancellor underscored how digital platforms, like LMS, are transforming traditional teaching methods, making learning more accessible and engaging for students. He encouraged all faculty members to actively participate in the workshop, as the knowledge gained would be vital in adapting to modern educational demands. He also expressed a vision for a digitally adept teaching faculty, capable of utilizing new tools to enhance the overall educational experience.

The workshop was conducted by Dr. V.K. Patle, who provided hands-on training on the LMS, covering features such as course creation, student assessment, and data analytics. Dr. Patle emphasized the importance of leveraging these tools to enhance student engagement and track academic performance.

The workshop concluded with a question-and-answer segment, allowing participants to clarify doubts and share insights.

At the conclusion of the workshop, Dr. Arti Parganiha, Director, IQAC Cell, expressed her gratitude to all participants for their enthusiastic engagement and contribution to the discussions. She also thanked the Vice Chancellor for his support in organizing the workshop and acknowledged the hard work of the organizing committee.

The workshop was a significant step towards equipping university faculty with the necessary skills to navigate the evolving landscape of education through technology. The knowledge gained will undoubtedly contribute to enhancing the teaching-learning process at the university.

The Vice Chancellor's vision for a technologically advanced educational environment, combined with Dr. Patle's expertise, made this workshop a significant step towards achieving the university's goals.
